Understanding Your Sepsis Diagnosis

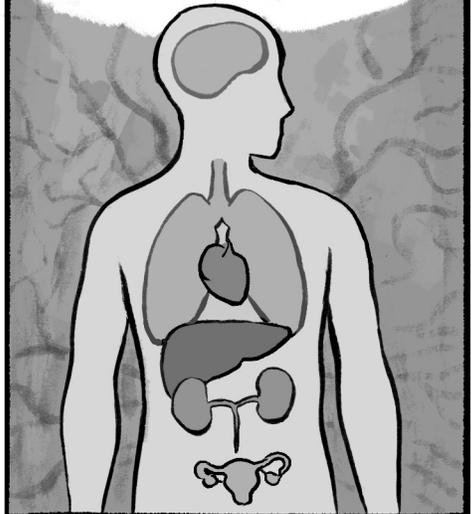

Normalmente, nuestro sistema inmunitario nos ayuda a luchar contra las infecciones.

La sepsis es el sistema inmunitario fuera de control.

Mientras intenta combatir la infección, ataca a todo el cuerpo.

El proveedor de atención de urgencias vio las señales de sepsis en sus **síntomas** y **signos vitales**.

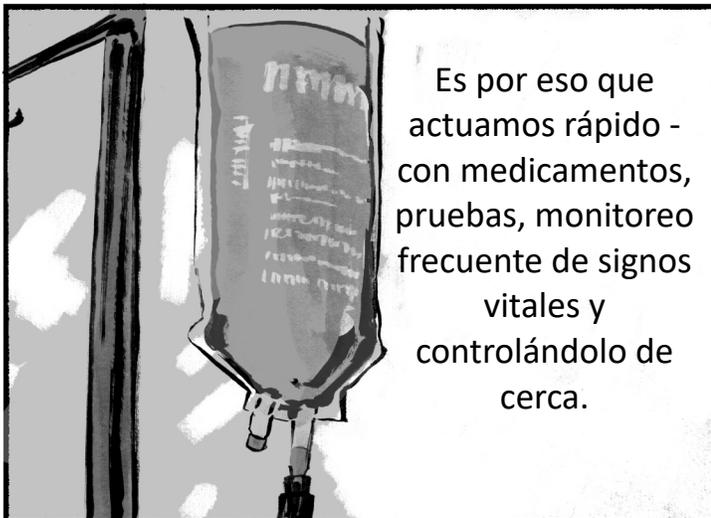

Estuvo **muy** enfermo.

Sí, lo estuvo. La sepsis puede ser potencialmente mortal.

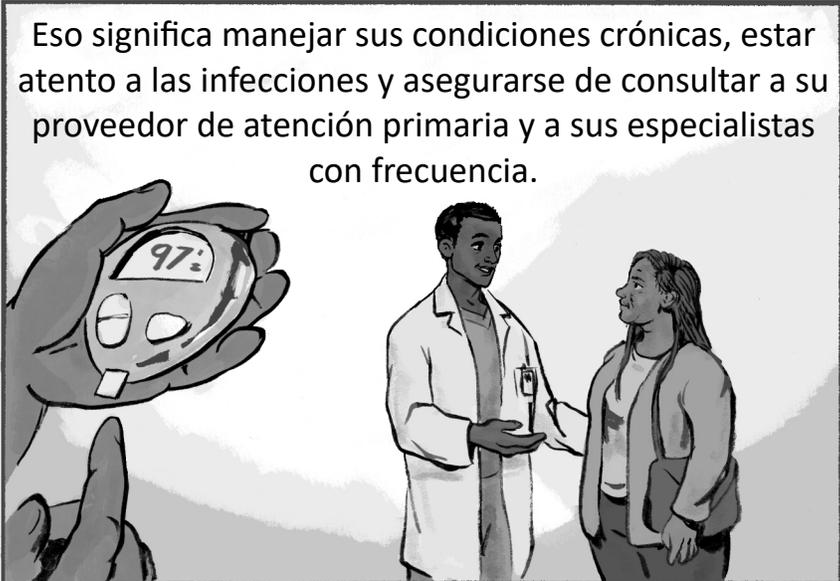

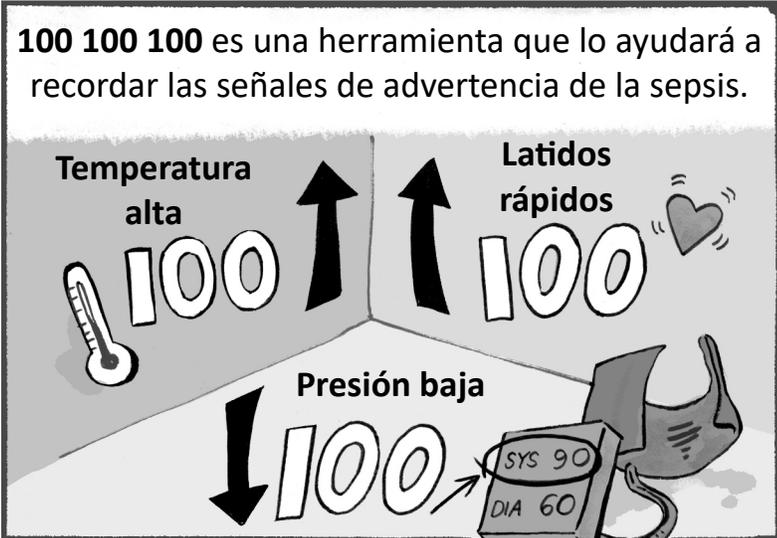

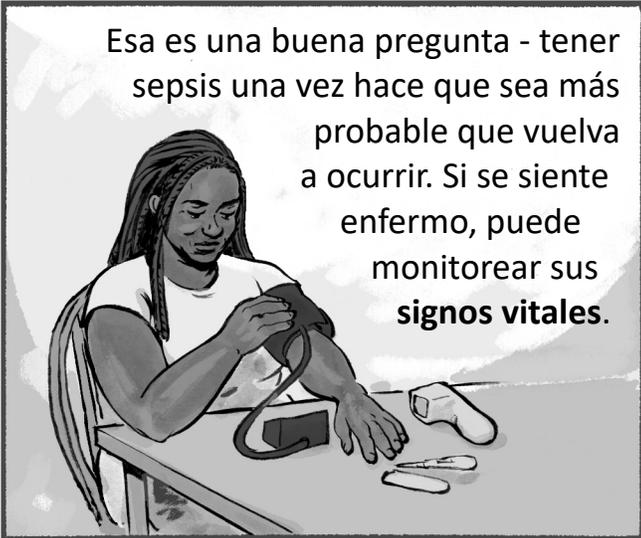

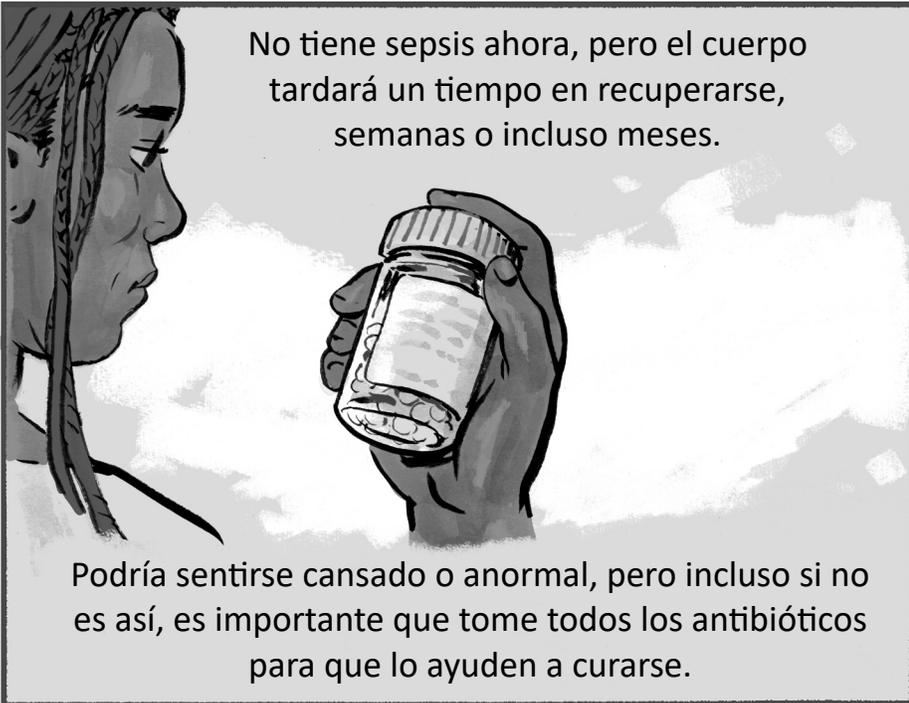

Es por eso que actuamos rápido - con medicamentos, pruebas, monitoreo frecuente de signos vitales y controlándolo de cerca.

¿Pero ahora se supone que debo irme a casa? Todavía no me siento bien... ¿Sigo enfermo?
